a day on the Sunfloat

On the water, there are a lot of pedal boats, rubber dinghies and canoes, but the Sunfloat Luxury attracts everyone's attention. The Sunfloat is a raft, motor-boat and sun deck at the same time! With the luxury island, you can offer your guests a new and unforgettable experience on the water. The Sunfloat is ideal for seaside resorts, hotels, restaurants or summer events on the water.

The comfortable and spacious deck offers enough space for four large and small water rats and is therefore ideal for renting out to families or couples. On the luxury island, you can enjoy the sun and just relax or go on a big adventure trip - and you don't even need a boat license for that.

The Sunfloat is a real eye-catcher not only because of its novelty but also because of its high quality and its design. Furthermore, you can add your personal advertising logos on the floating bodies and the parasol.

The Sunfloat Luxury can be stowed in three handy carrier bags to save space. Once the bathing season is over the luxury island can be easily stored in the garage or cellar due to its handy carrier bags. Additionally, we provide clear step-by-step instructions that enable quick assembly and disassembly.

Quality

Made in Germany

Everyone has enough space to relax and enjoy the adventure on the water as the spacious deck can accommodate up to four people. The deck and the four backrests of the Sunfloat Luxury are made of regional ash and are made by a carpenter at Lake Constance. The luxury island invites you to rest away from the crowded beach!
